This warrantee is subject to the following conditions:

- The products have been stored, installed, tested, operated and maintained with all applicable regulations, instructions and state of the art practice at the time of installation,
- The products have been installed by a professional,
- The products have been properly used and have not been subject to an accidental damage, an external cause, misuse, freezing conditions, installation in corrosive environments or atmospheres, negligence or acts of God, and more generally have been used under normal conditions,
- The products must be proven defective.

Claims made during this guarantee period must have prior authorization by COMAP. If the above conditions are met, COMAP will supply replacing products free of charge and this shall be the sole liability of COMAP. This warrantee does not cover transportation costs nor the costs of installation, removal and reinstallation.

Except replacement of proven defective products, COMAP is not liable for any damages of any sort whatsoever, including incidental and consequential damages.

This warrantee is subject to applicable consumer statutory rights
